

Rob van Bommel

Rob van Bommel is a Portfolio Manager within the Quantitative Equities team. His primary responsibilities are Robeco's Factor Investing strategies. He joined Robeco in 1990 as a quant analyst. He subsequently became portfolio manager UK Equities and Head of the European Equities team. He then managed Global Equities excl. US for US institutional clients. He was also closely involved in the establishment of Robeco's quantitative equity investing activities in the mid-1990s. Subsequently he held various management positions, including Structured Finance, Global Product Management and Client Portfolio Management. He holds a Master's degree in Business Economics from Erasmus University in Rotterdam.
